It was a great success.

Presidency Message:

"David Hockney (artist) once said "I had always planned to make a large painting of the early spring, when the first leaves are at the bottom of the trees, and they seem to float in space in a wonderful way. But the arrival of spring can't be done in one picture."

With (hopefully) warmer weather coming, I am excited to start painting spring again with its new beauty and fun colors. I love this time of year when we can start new things including new ways to make art. Enjoy it!"
